## SPRING REPLACEMENT PART NUMBERS

**PLEASE FORWARD TO:**

**Dealer Service**

☐ **SERVICE MANAGER**   ☐ **WARRANTY MANAGER**   ☐ **PARTS MANAGER**

For manual patio awnings, Carefree uses two types of roller tube. A standard 3-slot roller tube or a roller tube with a utility slot.

Standard 3-Slot Roller Tube

Roller Tube with Utility Slot

DB001

When ordering a replacement spring, examine the roller tube to determine if it has the utility slot.

If the roller tube does have a utility slot, add a "U" to the end of the part number.

**Example:**

Ordering the rear spring for an 18 foot awning with white castings WITHOUT the utility slot roller tube, the part number would be: R00923WHT.

Ordering the rear spring for an 18 foot awning with white castings WITH the utility slot roller tube, the part number would be: R00923WHT - U.
