

Dealer Service

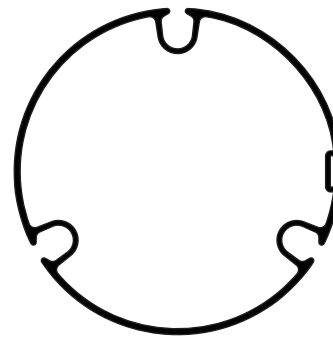

Carefree is updating the standard 3-slot roller tube configuration for patio awnings. The new configuration has an additional flat slot and is referred to as the 4-slot roller tube.

The new configuration will be phased in and used for new orders and replacement orders. The 3-slot roller tube will be discontinued as stock is depleted.

The 4-slot roller tube can be used as replacement for the 3-slot roller tube.

3-Slot Roller Tube

4-Slot Roller Tube

The roller tube replacement number will stay the same: **19xx00**
