

Service

The programming for the single awning 433MHz key FOB remote and the 433 MHz receiver has been updated to Version 5.

Receiver:

The version 5 receiver is backward compatible with all previous and new 433MHz remotes.

New part number R060622-002 replaces R060622-001.

Key FOB Remote:

The version 5 key FOB remote is not compatible with earlier versions of the receiver and must be used with the version 5 receiver.

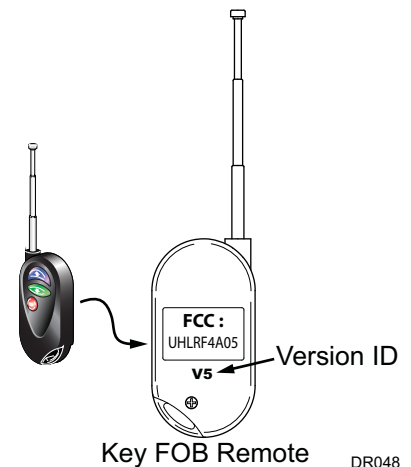

To order replacements or additional remotes, check the back of the current remote. If there is no version ID, it is a version 4 remote.

If the remote is lost, check the receiver version. If the receiver is version 2, 3 or 4, order the version 4 remote.

- Part number R060629-001.

If the receiver is version 5, order the new version 5 remote.

- Part number R060629-002.

The receiver update is compatible with all 433MHz keypad remotes used with Paramount, Apex and Mirage awnings.
